Bobby's Career Playbook

Future-Proof Careers in the Age of AI · Quantumleap Insights LLC · March 22, 2026

Student Profile & Accomplishment Record

NAME	Bobby
GRADE	Already in College
INTERESTS	Technology & Engineering
STRONG SUBJECTS	Computer Science
PRIORITY	High Earning Potential
ACTIVITIES	Varsity president, soccer
CONSIDERING	AI programmer

Your Top AI-Resistant Career Matches

Ranked by fit to Bobby's profile. Scores from 17 cross-referenced research sources.

#1

78%
AI RESISTANT

AI Engineer

Competitive Growing growth

Matches AI programmer interest with high tech focus and salary potential

💡 High demand field

#2

88%
AI RESISTANT

Cybersecurity

Competitive Growing growth

Strong salary growth in tech with Computer Science background

💡 High demand field

#3

85%
AI RESISTANT

Robotics

Competitive Growing growth

Combines engineering interest with programming innovation

💡 High demand field

#4

62%
AI RESISTANT

Software Dev

Competitive Growing growth

Direct path from Computer Science with leadership experience

💡 High demand field

#5

92%
AI RESISTANT

Renewable Tech

Competitive Growing growth

Engineering focus with tech innovation and strong job growth

💡 High demand field

Year-by-Year Action Plan

Your personalized roadmap from Already in College through college.

1 **College Year 1**

📖 COURSES
Declare or explore major, take intro AI/data course

🎯 ACTIVITIES
Join professional clubs, seek research opportunities

☀️ SUMMER
Industry internship in target career field

📁 BUILD
Professional resume with AI skills highlighted

🤖 AI SKILL
Complete an online AI certification relevant to your major

Building on What You Already Have

Bobby is NOT starting from zero. Here is how current activities connect to AI-resistant careers.

Varsity president

→ Leadership skills for tech team management

ADD

Soccer

→ Teamwork essential in software development

ADD

Computer Science studies

→ Foundation for all tech careers

ADD

Bobby's Brag Sheet · Already in College · 2026

ACADEMIC STRENGTHS

Computer Science

EXTRACURRICULAR ACTIVITIES

- Varsity president
- soccer

CAREER INTERESTS

Technology & Engineering

CAREER DIRECTION

Exploring: AI programmer

TOP AI-RESISTANT MATCHES

- AI Engineer (78% AI Resistant)
- Cybersecurity (88% AI Resistant)
- Robotics (85% AI Resistant)
- Software Dev (62% AI Resistant)
- Renewable Tech (92% AI Resistant)

DEMONSTRATED INTEREST ACTIONS

- Build a personal project and publish it on GitHub
- Enter a hackathon or coding competition this semester
- Start a tech blog or YouTube channel explaining concepts
- Contribute to an open source project

PRIORITY

High Earning Potential

College Counselor Meeting Kit

Walk into your next meeting prepared. Here is your agenda.

📋 BRING TO THE MEETING

✓ This printed playbook with Student Profile

✓ Unofficial transcript / grade report

✓ Printed Brag Sheet (above)

✓ List of colleges you are considering

✓ Any test scores (PSAT, SAT, ACT, AP)

❓ QUESTIONS TO ASK (TAILORED TO BOBBY)

1. What specific AI applicationsite you most?
2. Are you interested in hardware or software engineering?
3. Do you prefer working independently or leading teams?
4. What salary range would motivate your best work?
5. Which tech companies align with your values?

💬 TALKING POINTS ABOUT AI & CAREERS

→ PwC research shows workers with AI skills earn 56% more than peers in the same role, across every industry. We want to make sure our child builds AI fluency alongside their primary interests.

→ Entry-level jobs are being disrupted fastest. Goldman Sachs data shows tech grad roles fell 46% in the UK in one year. We want to ensure our child has demonstrable skills before graduating.

→ The World Economic Forum projects 170 million new jobs created but 92 million displaced by 2030. We want to focus on careers that require human skills AI cannot replicate.

📝 AFTER THE MEETING

□ Send thank-you email to counselor within 24 hours

□ Update brag sheet with any new recommendations

□ Schedule follow-up meeting for next semester

□ Share playbook with your partner/co-parent

Addressing Your Concern

Focus on AI skills now as they enhance rather than replace traditional programming roles leadership experience with AI learning through student tech organizations and AI project leadership

📊 PwC found workers with AI skills earn 56% more in every industry. The premium doubled in 12 months.

YOUR 3 NEXT STEPS THIS WEEK:

1. Research the top career match from this playbook this week
2. Have a conversation with your child using the talking points above
3. Schedule a counselor meeting and bring this printed playbook

The 56% Rule

Workers with AI skills earn 56% more in every industry (PwC, 2025)

Combining domain expertise with AI fluency is the highest-value career strategy in every field

→ Start with one AI tool relevant to their primary interest area this month

---

Research from 17 sources: WEF, Goldman Sachs, McKinsey, PwC, BLS, Stanford HAI, Anthropic, and 10 more.
